

## Industry Reference Committee – Industry Expert Member Nomination Form

Name of Nominee

Name of the Industry Reference Committee (IRC) for which you are nominating to be a member

The position on that IRC's structure for which you are nominating - your industry/sector expertise

Please indicate which of the following apply to you:

I would bring a national perspective for the industry sector

I would bring a state/territory/regional perspective for the industry sector. If so, please indicate the specific state/territory/region:

In determining the membership of the IRC, the Australian Industry and Skills Committee (AISC) is looking for individuals with extensive experience in and knowledge of their industry sector, with the capacity to proactively apply these attributes to the work of an IRC.

In particular, the AISC is interested in:

1. Comprehensive **knowledge** of your industry and relevant industry experience (where relevant).  
(Provide your response below in 250 words)

2. Level of **influence** across the sector and **strategic** approach to broad industry-wide issues.  
(Provide your response below in 250 words)

3. **Capacity** to consider current and future directions for your industry and to relate those factors to skills and workforce development.  
(Provide your response below in 250 words)

4. **Capability** to provide input directly to training package development, to seek input from established industry networks, and to represent a variety of interests and skills needs across the industry.  
(Provide your response below in 250 words)

5. **Ability** to undertake duties in good faith, acting in the public interest and best interests of the industry sector.  
(Provide your response below in 250 words)

In addition to completing the above selection criteria, please attach your **résumé** including the names of two referees to help the AISC understand what you will bring to the IRC. These documents should be emailed to [AISCsecretariat@dese.gov.au](mailto:AISCsecretariat@dese.gov.au)

Note: In determining the final membership of IRCs, the AISC will consider both the individual characteristics of nominees (as set out in their nomination) as well as the composition of the IRC as a whole. This aims to support a balance of geographic coverage, age and gender that is appropriate to the relevant industry or sector, as well as to provide an effective mix of leadership and operational expertise.
